

Report on Remuneration for Leading Personnel 2023

01 Introduction

Background

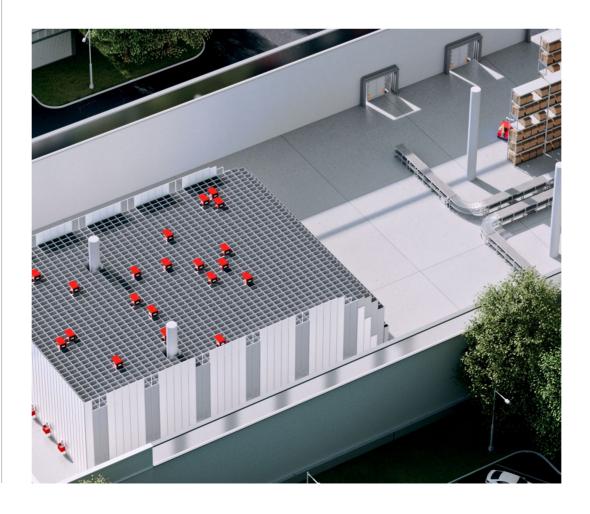

This report on salary and other remuneration to leading personnel in AutoStore Holdings Ltd is based on the guidelines for salary and other remuneration to leading personnel in the Group approved by the company's general meeting on Thursday, May 19, 2022 (the "Guidelines"). No changes were made to the guidelines at the 2023 Annual General Meeting.

The report is based on the requirements set out in the Norwegian Public Limited Liability Companies Act (the "Companies Act"), cf. Section 6-16 b, supplemented by Regulation on guidelines and report on remuneration for leading personnel dated December December 11, 2022 (the "Regulation"). The report is prepared in accordance with the European Commission's template for reports on remuneration.¹

The company notes that a proposal to explicitly include the members of the board of directors within the term leading personnel in the Companies Act is currently under discussion. This proposal has not yet been enacted in law, and the company has chosen to continue with the definition of leading personnel as was adopted for 2022.

Scope and currency

The scope for the report is years 2021 to 2023. The company went public in October 2021, and includes the time following the IPO as scope for the report. The currency used in the report is USD.

General overview of the financial year 2023

Financial highlights for the full year of 2023

O2 Remuneration to Leading Personnel

Share-based remuneration to leading personnel

In 2019, the group entered into option agreements, awarding non-transferrable options to, inter alia certain key employees. In total, 163,338,159 options have been issued to 25 option-holders, each option with a strike price equal to the fair market value of the underlying shares at the time the options were issued, which at the time was EUR 0.33, equivalent to USD 0.38 per option. The options are divided into service (33%) and performance (67%) options. In connection with SoftBank's acquisition of 40% of AutoStore in 2021, 100% of the performance options were deemed vested immediately prior to the closing of the SoftBank transaction. Further, all service options were deemed vested as if they had vested on a quarterly basis.

The unvested service options shall continue to vest on a quarterly basis (i.e. 5% each quarter) from the grant date until the fifth anniversary. In connection with the closing of the SoftBank transaction, the option holders were provided with the opportunity to exercise approximately 40% of their vested options and, as a result, sell the underlying shares to SoftBank. The service requirement of all options shall be deemed satisfied immediately prior to (but subject to the consummation of) a change of control, given that the option holder is, and has been, continuously employed by and continues to provide services to the group through the date of such consummation, and as otherwise set forth in an option agreement.

On July 7, 2022, the group introduced a new long-term incentive plan ("LTIP") for certain members of the company's management and other leading employees. Under the LTIP, the executives are awarded a conditional grant of share options and performance share units ("PSUs").

Options awarded under LTIP during 2023

On July 14, 2023, the group approved new grants under the LTIP which resulted in the total number of options that will be awarded under the LTIP to be 947,855, where each option will give the holder the right to acquire one AutoStore share from

the company. The share options under the LTIP for 2023 shall vest on July 14, 2026, subject to continued employment on each vesting date.

PSUs awarded under LTIP during 2023

The total number of PSUs that will be awarded under the LTIP for 2023 is 416,610. Vesting of the PSUs is based on service criteria and the achievement of financial or other performance goals, with the time-based vesting criteria matching the vesting schedule of the share options. Once vested, each PSU will award the holder with one AutoStore share (settled through treasury shares).

Table 4 (below) includes the number of shares, share options, subscription rights and other forms of remuneration linked to shares or the development of the company or other companies within the Group which is granted or offered, together with the main conditions for exercising the options, including subscription price, subscription deadline and any changes to these.

O3 Compliance with the Guidelines

How the remuneration complies with the Guidelines

The Board of Directors has designed the Remuneration Policy to align with the company's strategy and suitably reflect shareholders' interests. It does this in several ways:

- A significant proportion of the total remuneration package is variable, ensuring reward is linked to business performance.
- The variable remuneration package is weighted towards the achievement of long-term goals which are intended to drive sustainable value creation.
- Incentive plan metrics are taken from the business plans agreed by the Board of Directors, and they are targeted in such a way as to discourage excessive risk taking or other behaviors which would not be in the company's or shareholders' interests.
- Both shares and share options are used in the long-term incentive plan to give executives a stake in the business and, through share price development and capital returns, align their interests with those of shareholders.

 A claw back provision ensures that remuneration can be recouped or otherwise off-set under specific circumstances.

In preparing the Remuneration Policy the Board of Directors considered the remuneration and employment terms of the company's other employees. The Board of Directors is comfortable that there is an appropriate alignment of the principles on how pay and other package elements are set and reviewed for executives with those of the wider organization. The remuneration to leading personnel is consistent with the Remuneration Policy.

How performance criteria were applied

The executive management team has an annual short-term incentive program (STI) which is meant to align their priorities against the overall performance and development of the company as a whole. The STI is based 50% on overall company goals and 50% on individual goals per executive member. The Board of Directors hold the executive management team accountable for the relevant KPIs for each performance year, which are set to drive revenue growth and value creation for the company and its shareholders.

Derogations and deviations from the Guidelines and from the procedure for their implementation

In order to safeguard the company's interests the Board of Directors may, in individual extraordinary cases, and based on a recommendation of the Remuneration Committee, determine that it is appropriate to make a temporary exception to the Remuneration Policy. This could be in the case of material changes in the company's structure, ownership or business purpose; material changes to legislation, tax/accounting treatment or regulation; or other circumstances as the Board of Directors believes is warranted. If there is a deviation from the Remuneration Policy, the details will be set out in the applicable version of the Remuneration report.

There have been no deviations from the procedure for the implementation of the Remuneration Policy or any derogations from the Remuneration Policy itself.

O4 Comparative Information on the Change of Remuneration and Group Performance

The Remuneration Policy of the company states that the company should have market based and competitive pay for all employees, also tracking comparability over time.

Table 6 (right) contains information on the annual change of base pay on a full-time equivalent basis of employees of the Group other than leading personnel.

The salary change from 2022 to 2023 is calculated for base pay only.

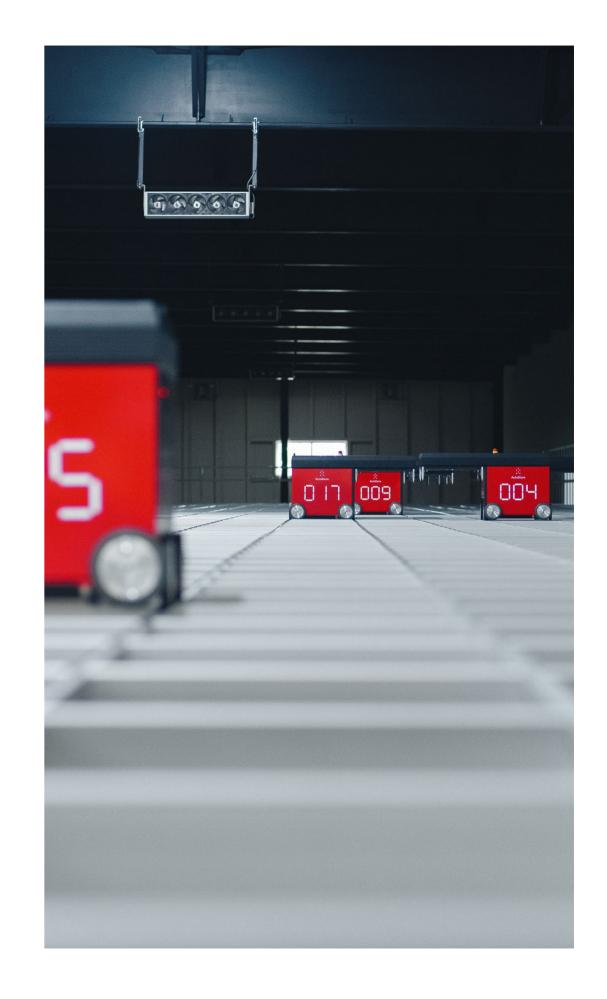

In addition to base salaries, permanent employees who are not on an individual incentive scheme is entitled to a 3% bonus – assuming company goals are met. Executives with leading roles have individual incentive schemes that are linked to the company overall performance as well as individual KPIs.

Comparative table over the remuneration and group performance (2022-23)

Total change in base pay - leading personnel

Total change in base pay – employe	ees	10.28%
USD million	2023	2022
Revenue	645.7	584.8
EBITDA	308.5	238.7

 N/A^1

¹ The executive management team conducted a market adjustment on base pay with the aim of ensuring competitiveness compared to relevant market. As such, extraordinary calibrations were made which makes the comparability not applicable in the period 2022-2023.

O5 Information on Shareholder Vote

Pursuant to the Companies Act Section 6-16 b (3), this report shall include an explanation on how the result of the general meeting's advisory vote over the report on salary and other remuneration to leading personnel for the previous year has been regarded. The advisory vote overall approved the report on salary and other remuneration to leading personnel for 2023. The votes that voted contrary were linked to level of transparency on individual KPIs on the short-term incentives. More details and transparency on individual KPIs for the short-term incentives will be considered for performance year 2024.

O6 Statement by the Board of Directors on the Remuneration Report

The board of directors has today considered and approved the Remuneration report of AutoStore for the financial year 01.01–31.12.2023.

The Remuneration report has been prepared in accordance with Norwegian Public Limited Liability Companies Act, section 6-16b and regulation 2020-12-11-2730.

In our opinion, the Remuneration report is in accordance with the Remuneration Policy adopted at the annual general meeting, and is free from material misstatement and omissions, whether due to fraud or error. The Remuneration report will be presented for an advisory vote at the annual general meeting.
