

# GEODIS

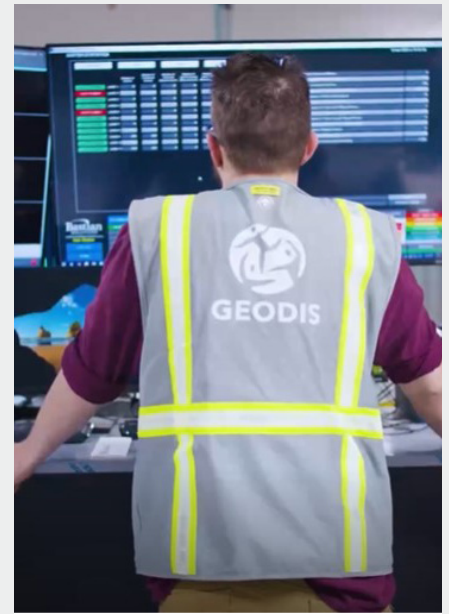

**Location:** United States  
**Industry:** 3PL  
**Partner:** Bastian Solutions

With a global network covering around 170 countries and more than 49,000 employees, GEODIS is a world leader in transport and logistics, with widely acknowledged expertise in all aspects of the supply chain. The company delivers shipments through its operations in land, air and sea transport, as well as contract logistics. As a growth partner for its customers, GEODIS is committed to supporting their development while minimizing the environmental impact of their logistics.

With the AutoStore system, GEODIS is able to fulfill over 460,000 order units per day for its clients, accelerating their click-to-ship time from an average of three days to less than one day. This has resulted in 50% growth of their clients' e-commerce business and a reduction in operating costs of over 30% by increasing the efficiency of their employees and reducing their need for space.

With AutoStore, GEODIS is trading towards to achieve ROI in less than three years. In addition, GEODIS achieved a reduction in cost of over 30% by reducing required space and increased efficiency of their employees, while reducing peak holiday hiring requirements by up to 1,000 employees.

“

AutoStore helped us to secure a long term contract from a large new client in a competitive RFP process.
